Mt. Nathan
Qld 4211.

Dear Ms. Kelly,

Re: Queensland Horse Council Convention 1999

The Queensland Horse Council is gathering information regarding individuals and organizations who have shown interest in the past regarding participation in our Annual Convention.

Last year I attended a seminar at Arundel Park where you outlined the concepts surrounding the Biomechanics approach to riding and horse training. I was suitably impressed and feel that this approach would greatly benefit many of the pleasure-riding fraternity.

Our forthcoming convention will be held in Toowoomba during the Festival of the Horse and has been scheduled for Monday 11th October. This date follows a weekend of Showjumping, Dressage and Hacking competition.

The Horse Council would like to ascertain your availability for this date with the view to presenting a talk/demonstration on Biomechanics and its role in achieving riding excellence.

I await your reply.

Yours sincerely,

Mrs. Teresa Bowman
Hon. Secretary.
